

Tasmia Hossain

Dhaka, Bangladesh | +880 1521741282 | tasmiahossain360@gmail.com | [GitHub](#) | [LinkedIn](#) | [Portfolio](#)
Software Engineer | .NET Developer

PROFESSIONAL SUMMARY

Computer Science and Engineering graduate passionate about software engineering and backend development using C# and ASP.NET Core. Experienced in developing database-driven web applications and conducting research in graph neural networks and traffic prediction. Eager to contribute to real-world software projects while continuously expanding technical expertise in .NET technologies as an entry-level Software Engineer or .NET Developer.

TECHNICAL SKILLS

- Programming Languages:** C#, SQL, Java, JavaScript, Python, C++
- Frameworks & Technologies:** ASP.NET Core MVC, Bootstrap, Flutter, PHP
- Backend & Web:** RESTful APIs, CRUD Operations
- Databases:** SQL Server, MySQL, SQLite
- Tools:** Git, GitHub, Visual Studio, VS Code
- Core Concepts:** Object-Oriented Programming (OOP), MVC Architecture, Database Design

PROJECTS

Lost and Found Hub | ASP.NET Core MVC, C#, SQL Server, Bootstrap | 2025

[GitHub Repository](#)

- Developed a full-stack Lost & Found Management System using ASP.NET Core MVC, C#, SQL Server, and Bootstrap
- Implemented CRUD operations and SQL Server integration for efficient item management.

SafeParking | PHP, MySQL, JavaScript, Bootstrap, Google Maps API | 2024

[GitHub Repository](#)

- Developed a web-based parking management system with location-based features using Google Maps API
- Implemented MySQL database integration for dynamic user interaction and data handling

Inventory Control System | PHP, MySQL, JavaScript, Bootstrap | 2024

[GitHub Repository](#)

- Built a CRUD-based inventory management system using PHP and MySQL
- Designed database schema and backend logic for efficient inventory tracking and reporting

Sudoku Bliss | Flutter, Dart, SQLite | 2023

[GitHub Repository](#)

- Developed a cross-platform Flutter mobile app with SQLite-based local data storage
- Implemented game logic and interactive UI for user engagement

RESEARCH

Traffic Flow Prediction and Dynamic Routing in Bangladesh's Urban Transport Networks with Graph Neural Networks | June 2026

- Conducted data preprocessing and analysis for urban traffic prediction using GNN-based models
- Explored machine learning techniques for intelligent transportation and route optimization

EDUCATION

Ahsanullah University of Science and Technology

B.Sc. in Computer Science & Engineering

Dhaka, Bangladesh
CGPA: 3.60+ / 4.00 | Expected Graduation: July 2026

Dhaka City College

Higher Secondary Certificate (HSC)

Dhaka, Bangladesh
GPA: 5.00 / 5.00 | 2020

YWCA Higher Secondary Girls' School

Secondary School Certificate (SSC)

Dhaka, Bangladesh
GPA: 5.00 / 5.00 | 2018

LANGUAGES

Bengali — Native English — Professional Working Proficiency
